FEATURED PROJECTS

Military Health System (MHS) Genesis Project Management Support

RWD provides expert project and program management support that encompasses the provision of business analysis, clinical informatics, administrative, and technical personnel for two major sites, Walter Reed National Military Medical Center and Fort Belvoir Community Hospital. RWD designs strategies/solutions for each project phase, and presents them to stakeholders before implementation. RWD provides services, materials, and supplies supporting identification, analysis, recommendations, and delivery of defense and joint medical mission assurance capabilities.

Geographic Information System (GIS) Systems Administration I & II Support

RWD administrative support services for the Directorate of Public Works (DPW) at Fort Stewart Hunter Army Field in its mission to provide scaled engineering, systems hardware/software configurations, related engineering applications, file archiving, file management, associated software and hardware installation, configuration, and optimization. Our technical support ensures the transfer of electronic files to the local network, and to parties involved in the design/ construction process. Our team has been recognized with awards and letters of accommodation for their outstanding performance and completing projects and tasks ahead of schedule and below budget.

Department of Defense, Defense Health Agency Logistics & Acquisition Program Management Support

RWD provides Program Management, Logistics and Acquisition Management Support services to include data analyst, medical supply chain operational readiness, required supply chain system support, acquisitions, biomedical engineering, and health hazards quality program management support, and other related workload requirements associated with the MTF medical supply chain. Our team is responsible for supporting the direct patient care mission of the DHN-NCR. Our subject matter experts oversee the technical and administrative services to complement the Government's workplace capabilities to support its overarching medical supply chain logistics and acquisition goal; expertise in 1102 series, management of acquisition activities in support of WRNMMC and nine+ co located military treatment facilities throughout the NCR. Provides recommended acquisition strategies for goods, services and personnel to division leadership.
